

# Gianni Dylan Caputo's AeroPress recipe

Recipe shared by Gianni Dylan Caputo (@gianni\_\_dylan) with CoffeeHow. Weigh everything in grams.

COFFEE  
18 g, in two doses of 9 g

WATER  
200 g, in two pours of 100 g

METHOD  
Inverted, two coffee doses

RATIO  
1:11

TOTAL TIME  
2:40 at most

## BEFORE YOU START

- ☐ Weigh two doses of 9 g of coffee.
- ☐ Grind the coffee and heat the water.
- ☐ Stand the AeroPress inverted on the scale and tare.

## BREW

| TIME | STEP                                                 | SCALE |
|------|------------------------------------------------------|-------|
| 0:00 | Add the first 9 g of coffee and pour 100 g of water. | 100 g |
| 0:45 | Pour another 100 g.                                  | 200 g |
| 1:30 | Add the second 9 g of coffee.                        |       |
| 2:15 | Fit the cap, flip onto the cup and press.            |       |
| 2:40 | Finish pressing by now at the latest.                |       |
